**Name:**

Kattekola Srihitha

**College Name:**

Kakatiya institute of technology and science

**State:**

Telangana

**Zone:**

warangal

## Program Learnings

In brief tells us about your experience in the past month. This includes the activities you conducted and how you conducted them. .

Your learnings from the program should include:

1. How did the program help you grow?
  - A. This helped me to drag more information on google gemini and how we can use in our study flows which helped me and my friends a lot.
2. New experiences and features you learnt.
  - A. I learnt how we need to give the exact prompt of the problem we face.
3. Feedback / Problems you encountered
  - A. Till now everything is good except image generation sometimes gemini unable to give same character that we gave by prompt.

## Proof of Execution

Showcase the activities you conducted through pictures and videos.

## Next Steps

Tell us about your future plans.

1. How you aim to grow further in the program.

For next month I'm going to increase my engagements rapidly by the help of an event that I am going to conduct in my college about Gemini.

1. Unique & new activity proposals that you plan on organising.

Yes, I'm organising an event under Sumshodhini a technical event in our college.
